PUBLIC SECTOR AND GOVERNMENT JOBS AFTER POST GRADUATION:

There's no denial of the fact that Government job is the dream job of every common man. It's due to the security and stability provided, government jobs have become popular among the candidates.

Various entrance examinations for job purpose are conducted by the government sector for Post Graduate students. A Post Graduate can opt for banking sector jobs that are conducted by IBPS and also by public banks at individual levels. Moreover, Post Graduate students can apply at LIC (Life Insurance Corporation), PCS (Public and Commercial Service), IAS (Indian Administrative Service) and Railways. In addition, Post Graduates can also opt for apply for job positions in Post Service, Police, Medicine and Defence.

There is a common misconception among everyone that cracking government exams are quite difficult. However, with positive approach, regular practice and right coaching anyone one clear public sector exams with ease. There are many coaching centres and study materials that you can consider to improve your skills and crack government exams for a bright future.

PRIVATE SECTOR JOBS AFTER POST GRADUATION

Career in IT Industry: The IT Industry offers lucrative career options for post graduate candidates. If you have one your Post Graduation in Computer Science, you can be hired as People Managers, Project Managers, Software Developers, Software Engineer and Product Managers. One major skill that you need to excel in IT field is the ability to manage large teams for both off shore and on shore locations.

Career in Banking Sector: If you have completed your Post Graduation in finance and accountancy, you can build your career in the Banking Sector. Today, the banking industry is growing by leaps and bounds and requires well-qualified employees for their widespread operations. In the banking sector, you can look for positions such as Operation Manager, Loan Manager, Cashier, Probationary Officer, Branch Manager, Sales Manager and Marketing Manager.

Career in Sales and Marketing: The sector of Sales and Marketing is growing at an exponential rate and every company needs this department to function properly in the market. This is a highly lucrative career option for those who have completed their MBA. Reputed companies in Telecom and FMCG, only consider candidate who are Post Graduate along-with an MBA degree from a reputed institute. In this sector, the salary packages offered by companies are also high as compared to other sectors. Career growth in this sector is also provided you prove yourself as a successful marketing strategist.

Career in Digital Marketing: In the past 5 years, Digital Marketing has emerged as the most demanding career option for Post Graduates as it has opened various doors of employment for marketers. Those who prefer desk job and yet want excitement in their life; digital marketing is the ideal sector for them to work. This field offers various job opportunities such as SEO Manager, Email-Marketing Manager, PPC Manager, Digital Marketing Executive and Digital Marketing Managers. If you are a Post Graduate and want to excel in the field of digital marketing, make sure to do a quick certification in Internet Marketing from any institute and give your career a new wing.

Career in Finance operations: Every company has a dedicated department for capital and operational expenditure. The growth and revenue of an organization entirely depends on an effective and strong finance team. Therefore, Post Graduates with finance degree in CS/CA/CFA/CWA are in great demand now-a-days.

Career in Human resources: This is again one of the popular career options that promise stability and the ability to work in non-technical and technical organizations. The candidate should have a Post Graduate Degree in Human Resource from a reputed MBA institute to work as a HR Manager. Human Resource professionals can work in various roles as Training Managers, Recruitment Managers, Learning and Development managers. If you are good at managing people and have good sense of user behaviour, then this profession is the right fit for you.

Doctorate degrees after Post Graduation

If you have done your Post Graduation, and want to move into the research field rather than doing a job, then the next option is to have a Doctorate Degree or PhD. The duration of these courses are generally from 2 to 3 years. Candidates with Undergraduate Degree in Engineering, Law and Medicine can directly apply for an entrance exam for a Doctorate Degree. Entry to courses at PhD level is always through an entrance examination.

CAREER OPTIONS AVAILABLE AFTER POST GRADUATION

Improve the existing career:

Whether you are current working somewhere or looking for the first job after Post Graduation, make sure to do a short-term certification course in the field of your choice. This will not only guarantee your growth in the current organization but also help you to get your first job with a lucrative salary package.

Most importantly, inform the Human Resource team about your new certification and mention all the details in the cover letter while applying for a job. Candidates with new certifications as per market trends and relevant educational qualifications are preferred by companies for general management and people management profiles. In addition, make your intent clear while applying for a job that will help you to grow financially and professionally.

CAREER AFTER POST GRADUATION

In this era of stiff market competition, it has become essential to have a Post-Graduation degree. Today, the market demands are increasing rapidly, which has created an environment of competitive workforce, where knowledge-based employees with exemplary education qualifications can only survive and find their dream jobs. Nevertheless, it has been observed that even a Post Graduate Degree is not proving sufficient for a desired career and dream job.

Are you not satisfied or confused about your career even after completing your Post Graduation? Don't worry! There are multiple options that you can explore for a better career prospect after Post Graduation. Eventually, the final choice will depend upon your stream of education at Post Graduation along-with your interest and passion.

Campus Placements

Today, there are colleges and institutes that offer placement opportunities to the graduating students. For providing placement services, there are placement cells that are set up. And as part of the placement cell services, they organize campus placements where employers are invited. In fact, campus placements are one of the best ways of building your career in your chosen domain.

Other than that, you can connect with prospective employers via internships and industrial visits. More so, you can use social media platforms for networking with recruiters.

Government Sector Opportunities

There is huge demand for government jobs because of benefits such as pension and health schemes. And with a postgraduate degree, you can apply to public sector banks, Defense Forces, Railways, and Post Offices. Additionally, there are opportunities in PCS (Public and Commercial Service), LIC (Life Insurance Corporation), and IAS (Indian Administrative Service).

However, you have to appear for entrance exams to become eligible for the government jobs. Nonetheless, passing the entrance exams may not be easy. Hence, you should enroll in any of the reputed coaching centers to receive the right training.

Private sector opportunities

After receiving your post-graduation degree, there are, also, jobs in the private sector that you can avail. Indeed, the private sector offers a multitude of benefits – such as attractive pay packages, professional development options, and a multicultural work environment. In the following details, you can learn more about the different available options in the private sector.

IT Industry: The IT industry provides a range of option for IT professionals. Indeed, for those having a postgraduate degree in Computer Science, they are several roles in the IT industry to avail. These include Software Engineer, Software Developer, Product Manager, and Project Manager.

Banking Industry: A post-graduate degree in Finance and Accountancy qualifies you for taking up roles in the banking industry. All the same, you can work in a variety of roles – such as Operations Manager, Sales Manager, Cashier, and Marketing Manager.

Sales & Marketing: The postgraduate-level Masters of Business Administration (MBA) program is for those individuals who want to have a career as a Sales and Marketing professional. With an MBA degree, you can seek jobs in a wide range of industries in the Sales & Marketing department in several roles. These include Sales Manager, Marketing Manager, and Marketing Strategist – among others.

Digital Marketing: The digital marketing industry offers a series of job opportunities for those groups having postgraduate degrees. Also, you can opt for a certification course in Internet Marketing. Then, you can improve your career prospects of developing a career in the digital marketing industry.

Finance: Finance professionals are needed to supervise the capital and operational expenditure. However, to become a specialist in the finance domain, you must have finance degrees such as CWA/CFA/CS/CA ones. Additionally, armed with a postgraduate degree in Finance, you can apply for higher-level management positions in the Finance sector.

Human Resources: To become a Human Resource (HR) professional, you can opt for the MBA program while specializing in HR. HR personnel have an array of responsibilities such as hiring personnel, training staff and various other employee welfare duties.

In fact, there are several roles in the HR domain that you can apply to. These include Recruitment Managers, Development Managers, and Training Managers. Although, you should be able to manage people, and understand user behavior, to excel as an HR professional.

Doctoral Courses: If you are interested in research, then consider the option of pursuing doctoral programs after getting a postgraduate degree. The Doctoral courses or PhDs run for 2-3 years. Also, you have to clear the entrance exams to be eligible for the PhD programs.

Moreover, the aspirants who have an undergraduate degree in areas of Medicine or Law or Engineering qualify for direct admission to the doctoral programs.

Overseas Jobs: You can consider applying for jobs in foreign countries after completing your postgraduate studies. In fact, postgraduate degrees are much in demand in western countries. This is because college education is expensive and thus, there are lesser people applying for the same.

BPO/KPO : With a Postgraduate degree, there are jobs in the BPO/KPO sector for availing too. However, you may need to work in shifts. Even then, there is a host of management positions in this field; these include at the levels of the senior and mid-level ones. Other perks of this sector are health insurance and foreign travel benefits.
